

These are some great ideas how to be safe online

by: Xavier Moore Alexander

Things you should not send to any one.

First, you shouldn't give anyone you don't know your phone number. Next, you shouldn't give anyone your password. Lastly, you shouldn't give anyone your address.

What to do if you are getting Cyber bullied.

- First, if someone says something mean to you on the computer say something nice to them. Next, if they say something again mean get a adult or a parent. Lastly, If they say something mean again log off your site so they can't say anything mean to you again.
