# How to be safe on line

First,  
never talk with people  
You do not know and don't talk  
to strangers.

# Never talk to people you do not know

Contact 911 if they are trying to threaten (scare) you.

Don't answer to people you do not know.

Send only nice things so you can receive nice things back.

# Make strong passwords

- One reason you should make a strong password is so people don't log on as you.
- Do NOT put your real name put a make believe name.
- You should not tell any body but adults your password.

# How to be safe

- You can be safe by avoiding emails from people you don't know.
- Only open and send good emails to people so you don't get in trouble.
- Let your parents know about this.

How to be safe online.

You should use these ideas so  
you can be safe online.
